I greatly opposed to another rate hike by Dominion Energy. I can't believe the Public Service Commission is even entertaining a 5.19% or approximately \$6.53 increase during a pandemic!  
I had to go on a payment plan for my winter bill, for which I haven't completed. Also, with gas price nearing \$5 a gal + the rise in food cost, we're all struggling. And, as a Sr, living on a low- fixed income, I can not afford to shuck out any more money monthly.
